Give us information about your contact person for the National Environmental Performance Track Program.

Name	Roger Lee
Title	Manager, Environmental Resources
Phone	770-494-5986
Fax	770-494-6517
E-mail	roger.a.lee@Imco.com
Facility/0	Company Website http://www.lmaeronautics.com

<sup>\*</sup> If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Expiration Date:

## Why do we need this information?

EPA needs background information on your facility to evaluate your application.

# What do you need to do?

- Provide background information on your facility.
- Identify your environmental requirements.

1	What do you do or make at your facility?	Current operations consist of the following main activities: Manufacture of airlift and fighter aircraft (C-130J and F/A-22), C-5 upgrades/repair work, supply of spare parts, and maintenance support to the existing fleet of aircraft manufactured by LM-Aero – Marietta.
2	List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.	NAICS 336411
3	Does your company meet the Small Business Administration definition of a small business for your sector?	☐ Yes         No
4	How many employees (full-time equivalents) currently	☐ Fewer than 50
-	work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.	□ 50-99
		□ 100-499
		□ 500-1,000
		☑ More than 1,000
5	Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your	

application.

# Section A, continued

Expiration Date:

#### 06/30/03

Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level? The facility is a Governmental Owned Company Operated facility. The United States Air Force owns the facility 755 acres (AF Plant 6), Lockheed Martin conducts the on-site operations. In addition, Lockheed Martin owns and has operations on an additional 76 acres. The application is for the entire site.

Partner - State of Georgia Clean Air Campaign Partnered - State of Georgia Pollution Prevention Assistance Division on a number of initiatives

Member - Cobb County Resource Council

Member – Georgia Chapter of the Air & Waste Management Association

Member - Georgia Industry Environmental Coalition

Member - Georgia Water and Pollution Control Association

Expiration Date:

## Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

## What do you need to do?

- Confirm that your EMS meets the Performance Track requirements.
- Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Read the EMS requirements on page 9-12 of instructions. Tell us if your EMS meets these requirements for:

1	Environmental policy ————————————————————————————————————		□ No	
2	Planning —	⊠ Yes	□ No	
3	Implementing and operation ————————————————————————————————————	⊠ Yes	□ No	
4	Checking and corrective action ————————————————————————————————————	⊠ Yes	□ No	
5	Management review		□ No	
6	Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?)	⊠ Yes	□ No	
7	Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?)	⊠ Yes	□ No	
8	When did you last update your aspect analysis? (mo/yr)	10/2002		
9	Have you completed at least one EMS cycle (plan-do-check-act)?	⊠ Yes	□ No	
10	Did this cycle include both an EMS and a compliance audit?	⊠ Yes	□ No	
11	Have you completed an objective self-assessment or third-party assessment of your EMS?	⊠ Yes	□ No	Company goal of achieving ISO 14001 certification by 10/04

0032		OMB No. 2010-
06/30/03		Expiration Date:
If yes, what method of EMS assessment did you use?	Self-assessment	Third-party assessment
	☐ GEMI	☐ ISO 14001 Certification
	☐ CEMP	☑ Other Air Force Environmental
	☑ Other Internally developed risk assessment protocol.	Compliance Assessment and Management Program Audit –includes EMS review.

#### Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

## What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

#### First achievement

1 What aspect have you selected from the Table on page 29-31?	Total Solid Waste	
What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	1,820	1,115
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.06	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Aircraft produced	

0032

06/30/03

Expiration Date:

7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?

The increase is a result of improved employee education, expansion of recycling program, site visual aids, strategically locating the recycling locations.

#### Second achievement

	Occord achievement				
1 What aspect have you selected from the Table on page 29-31?	Emissions of NOx				
What units are you using to quantify this aspect? (See Table, page 29-31.)	Tons of NOx				
	PAST	CURRENT			
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	41 Tons NOx	20 Tons NOx			
4 What are the years for which you are reporting these quantities?	2000	2002			
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	1.06	1.0			
What is your normalizing factor based on (e.g., production, employment)?	Aircraft produced				
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Replaced one of four exiting boilers with a low NOx boiler.				

# Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Expiration Date: 06/30/03

**Note to small facilities:** If you are a small facility, you must report future commitments for only two environmental aspects.

Section C, continued

F'		. • 4	
⊢irst :	comn	nitmen	ī

1	What aspect have you selected from the Table on pages 29-31?	Air – NOx emissions		
2	What units are you using to quantify this aspect?	Tons NOx/yr		
<i>3a</i>	Is this aspect considered significant in your EMS?	☐ Yes ☒ No		
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.	Not a regulatory requirement to replace this boiler, but in doing so it will have a positive impact on the area air quality.		
		CURRENT	FUTURE	
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	32 tons NOx/yr	18 tons NOx/yr	
5	What are the years for which you are reporting these quantities?	2002	2006	
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)			
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?			
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	LM Aero- Marietta is currently in the process of designing/engineering the replacement of one boiler located at its steam generation plant. The replacement Ultra Low NOx boiler will result in a 10:1 reduction in NOx emissions from current boiler emissions.		
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	⊠ Yes □ No		
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Emissions regulated by Title V permit, however, the there are no permit conditions that require a boiler replacement or modifications.		

Section C, continued

Expiration Date:

# Second commitment

1	What aspect have you selected from the Table on pages 29-31?	Total Water Use		
2	What units are you using to quantify this aspect?	Million Gallons per Year (MGY)		
<i>3a</i>	Is this aspect considered significant in your EMS?	☐ Yes ☒ No		
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.	Not a regulatory requirement to implement on-site water reuse. Project will have a positive impact on conserving potable water.		
		CURRENT	FUTURE	
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	499 MGY	426 MGY	
5	What are the years for which you are reporting these quantities?	2002	2006	
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)			
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?			
7	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	In a cooperative effort with the United States Air Force LM Aero – Marietta is in the process of installing a Reverse Osmosis/Ultra Filtration unit which will take treated industrial and sanitary wastewater and further purify it for use in facility process tanks, cooling towers and boiler make-up. Goal is based on wastewater reused (avoidance of fresh potable water use and reduce wastewater discharge with an ultimate goal to achieve zero discharge).		
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	☐ Yes ☒ No		
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.			

Th	ird	~	mm	itm	Δn

1	What aspect have you selected from the Table on pages 29-31?	Hazardous Materials Use - Hazardous Materials Substitution (Chromated Primer)		
2	What units are you using to quantify this aspect?	Pounds		
<i>3a</i>	Is this aspect considered significant in your EMS?	⊠ Yes □ No		
<i>3b</i>	If no, please explain why you believe this aspect should be included as a performance commitment.			
		CURRENT	FUTURE	
4	List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	3000 lbs	250 lbs	
5	What are the years for which you are reporting these quantities?	2002	2006	
6a	(Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)			
6b	(Optional) What is your normalizing factor based on (e.g., production, employment)?			
	You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	LM Aero – Marietta is currently researching the replacement of chromated containing primers used for priming outer mold surfaces of the C-130J aircraft. Goal is dependent on a suitable replacement being certified by the Air Force.		
8a	Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	⊠ Yes □ No		
8b	If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Painting operations are regulated by the sites Title V Air permit and by RCRA regulations. There are no limits or regulatory requirements driving the change to Non-Chromated primers.

06/30/03

Expiration Date:

#### Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

# What do you need to do?

- Describe your approach to public outreach.
- List three references who are familiar with your facility.

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

LM Aero – Marietta Communications Department is represented on the EMS team, which yearly reviews the sites environmental aspect. Methods of communication used within the plant to communicate information include but are not limited to: supervisor briefings; LM Aero –Marietta NewsLink, LeaderLink, and LM Aero Star articles; All Subscriber e-mail messages; awareness video; ESHM web site; posters and billboards; distribution of customized ISO mini-guide; informational brochures; press releases; ISO pocket cards; Hotlines. Any ESH question can be raised on the ESH Hotline at 817-777-5151. External communications regarding significant ESH aspects will be managed in accordance with LM communications policy on an inquiry basis.

LM Aero – Marietta maintains mem berships in the Cobb County Resources Council and local chapter of Air & Waste Management Association and the Georgia Industry Environmental Coalition, and the Georgia Water and Pollution Control Association.

2 How do you inform community members of important matters that affect them?

LM Aero – Marietta Communications Department is responsible for coordinating all aspects of ESH related inquires from interested parties. In addition, the ESH staff regularly attends government and trade sponsored meetings, and workshops dealing with ESH related topics.

Customer related ESH inquires are handled by program liaisons in conjunction with LM Aero – Marietta ESH.

Internal ESHMS communication mechanisms include, but are not limited to: ESH web page, articles in the LM Aero – Marietta Star, and Dateline. External communications include local newspaper publications, regulatory agency publications, TV news reports, and articles published in professional publications.

On behalf of Lockheed Martin Aeronautics - Marietta Section E

Application and Participation Statement.

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the National Environmental Performance Track Program Guide and in the Application Instructions;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

$\boxtimes$	16.	Standards Applicable to Indirect Discharges (Pretreatment)
Othe	r (you n	nust list these if applicable)
	17.	Federal, State, tribal, or local regulations not listed above.
$\boxtimes$	18.	ID Numbers (specify whether State or Federal). NPDES permit # GA0001198, Cobb County Industrial Discharge permit # 544

# **Drinking Water Regulations**

Chec	k all th	at apply.
	1. 2. 3. 4. 5.	Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146) National Primary Drinking Water Standards (40 CFR 141) Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141) Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources Underground Injection Control Requirements Monitoring, Reporting and Record keeping Requirements for Community Water Systems
	.,	must list these if applicable)
Ш	7.	Federal, State, tribal, or local regulations not listed above.
	8.	ID Numbers (specify whether State or Federal).
Toxic	Subs	stances
Chec	k all th	at apply.
$\boxtimes$	1.	Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
$\boxtimes$	2.	Import and Export of Chemicals (40 CFR 707)
	3.	Chemical Substances Inventory Reporting Requirements (40 CFR 710)
	4.	Chemical Information Rules (40 CFR 712)
	5.	Health and Safety Data Reporting (40 CFR 716)
$\boxtimes$	6.	Pre-Manufacture Notifications (40 CFR 720)
	7.	PCB Distribution Use, Storage and Disposal (40 CFR 761)
	8.	Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
	9.	Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)
Other	(you	must list these if applicable)
	10.	Federal, State, tribal, or local regulations not listed above.
	11.	ID Numbers (specify whether State or Federal).

#### **Pesticide Regulations**

Check all that apply. 1. FIFRA Pesticide Use Classification (40 CFR 162) 2. Procedures Storage and Disposal of Pesticides and Containers (40 CFR 165) Certification of Pesticide Applications (40 CFR 171) 3. П 4. Pesticide Licensing Requirements П 5. Labeling of Pesticides П 6. Pesticide Sales, Permits, Records, Application and Disposal Requirements 7. Disposal of Pesticide Containers Restricted Use and Prohibited Pesticides Other (you must list these if applicable) П 9. Federal, State, tribal, or local regulations not listed above. 10. ID Numbers (specify whether State or Federal). **Environmental Clean-Up, Restoration, Corrective Action** Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund). Please identify and include date of Record of Decision.  $\boxtimes$ 2. RCRA Corrective Action. Please provide date of RCRA/HSWA permits that require corrective action. П Other Federal, State, tribal, or local environmental clean-up, restoration, corrective action regulations not listed above. Please include date of requirement.

Facility Name Lockheed Martin Aeronautics Company - Marietta

Facility Location: 86 South Cobb Drive, Marietta, GA, REM 3 Zone 0446

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1888-339-PTRK (7875) or email ptrack@indecon.com.

To submit your application:

- 1) E-mail the completed application to ptrack@indecon.com, and
- 2) Fax the completed an signed Section E (**not** the entire application) to (617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

The Performance Track Information Center c/o Industrial Economics Incorporated 2067 Massachusetts Avenue Cambridge, MA 02140

# **Paperwork Reduction Act Notice**

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
